Requirements

This script is created in **Laravel 5.3**

1. PHP >= 5.6.4
2. OpenSSL PHP Extension
3. PDO PHP Extension
4. Mbstring PHP Extension
5. Tokenizer PHP Extension
6. XML PHP Extension

Errors that can occur before Installation

1) **500 Error**

This error is caused due to the improper configuration of .htaccess (Apache), Nginx configuration or folder permission problem.

Apache

Check the .htaccess contain this code:

```
<IfModule mod_rewrite.c>
    <IfModule mod_negotiation.c>
        Options -MultiViews
    </IfModule>

    RewriteEngine On

    # Redirect Trailing Slashes If Not A Folder...
    RewriteCond %{REQUEST_FILENAME} !-d
    RewriteRule ^(.*)/$ /$1 [L,R=301]

    # Handle Front Controller...
    RewriteCond %{REQUEST_FILENAME} !-d
    RewriteCond %{REQUEST_FILENAME} !-f
    RewriteRule ^ index.php [L]

    # Handle Authorization Header
    RewriteCond %{HTTP:Authorization} .
    RewriteRule .* - [E=HTTP_AUTHORIZATION:%{HTTP:Authorization}]
</IfModule>
```

Nginx

Check your Nginx config contain this:

```
location / {
    try_files $uri $uri/ /index.php?$query_string;
}
```

Permission Problem

Check the following directory and all directories and files inside it are globally writeable:

- a) bootstrap/cache
- b) storage

2) Install directory not found

This is caused due not enabling **rewrite** module in apache. (Similarly in Nginx)

3) Class log

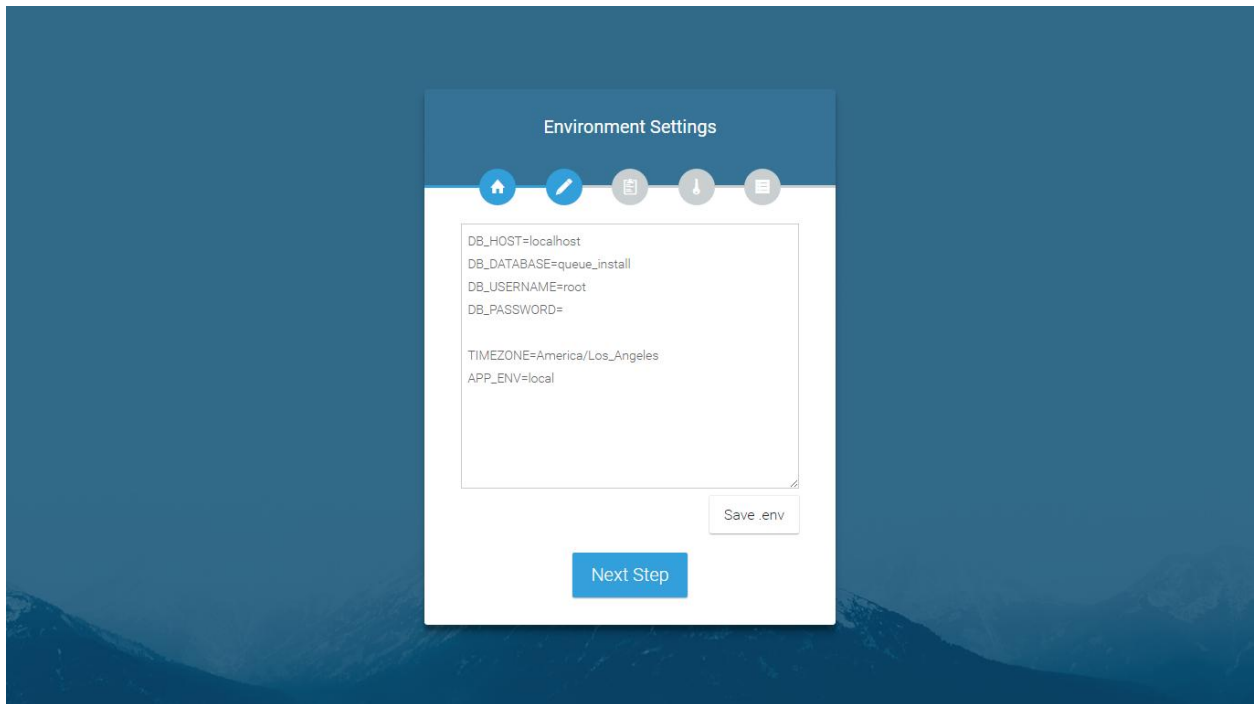

This error is caused due to not properly installing. Caused mainly when database the tables are not generated. It can also be caused if no basic datas are seeded in DB. If this error keeps on coming, from command line type 'php artisan clear-compiled' before installation.

Installation Process

- 1) You need a php server or wamp, xamp in your computer to run this application
Wamp server installation procedure (<https://www.youtube.com/watch?v=MsMaiHqkKkQ>)
- 2) First extract .zip file to a folder in www directory (You can use queue as folder in **www** directory)
- 3) Then enter url in your browser (eg:localhost/queue).then it will start installation procedure

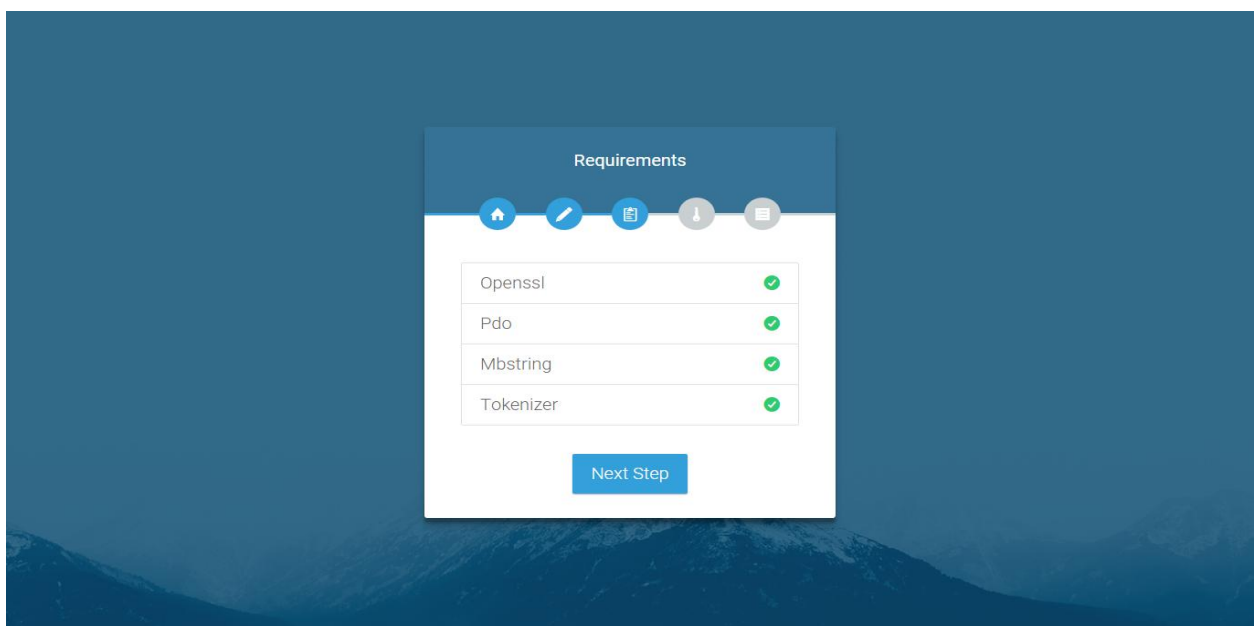

4) Then click on **Next Step** button

Set Database details and time zone then click **save** and then click **Next Step**

Note: Database not create automatically so you need create database manually

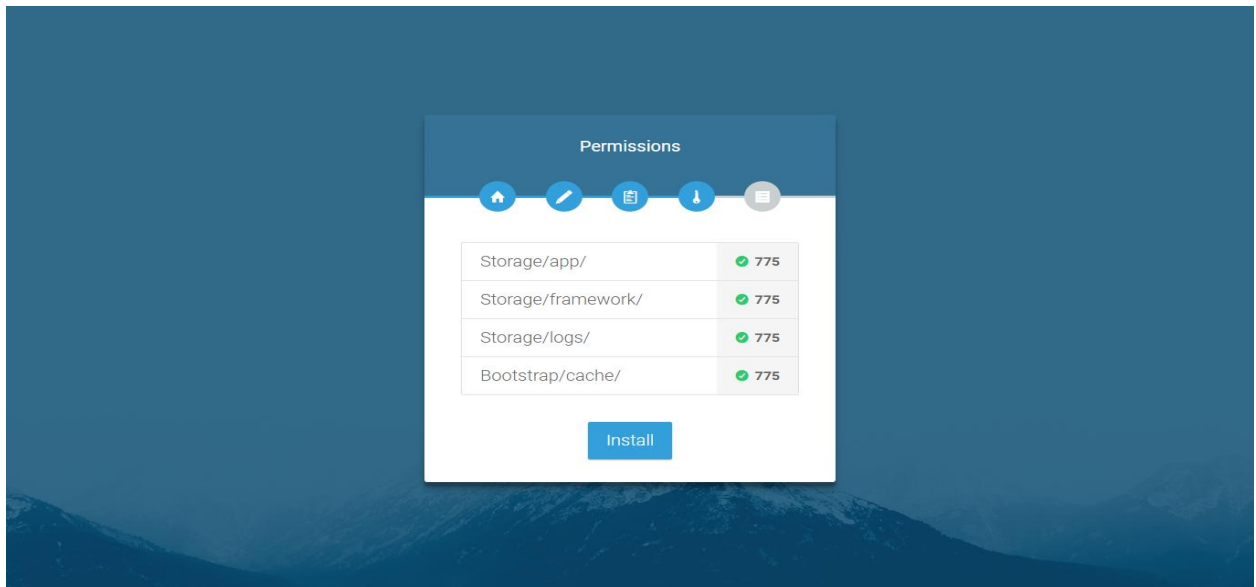

5) Then it will go to requirement page

Note: Active above PHP extensions

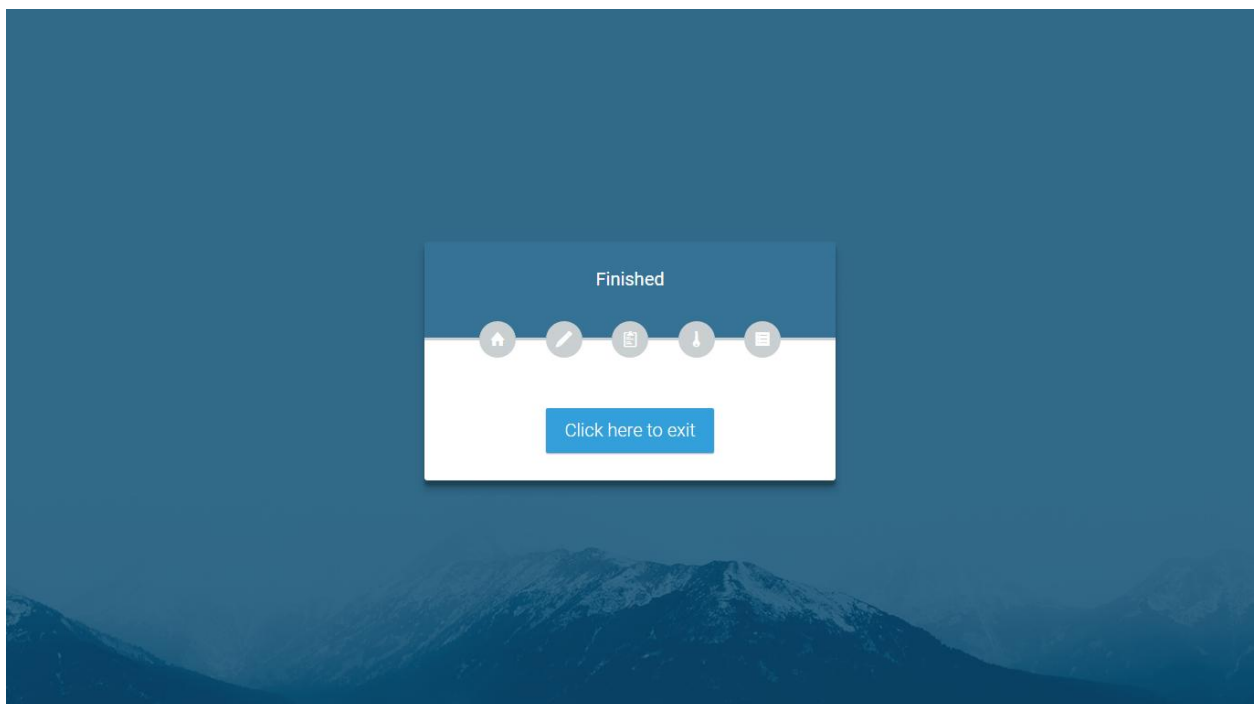

Then click on **Next Step**

- 6) Then it will go to permission page

Set above folder permission to **775** and then click **Install**

- 7) Finally, you will successfully completed installation task

Note :Default username and password is

Username: admin

Password: admin

1.1 Open your installed directory

Open your installed directory and it will show a login page. Enter your username and password

Default Username: admin

Default Password: admin

Login Form

After logged in you can see a dashboard of your office

Dashboard

1.1(a) Display Url on Header

It is used to display for calling token numbers on wall mounted monitor

1.1(b) Add to Queue Url on Header

1.2(a) Setting up new Department

Click **New** from right side

The screenshot shows a web application interface for managing departments. On the left is a sidebar menu with options: Dashboard, Call, Department, Counter, Users, Reports, and Account. The main area displays a table of departments with columns: Id #, Name, Starting Letter, Starting No., and Actions. A modal window titled '+ Add New Department' is open, containing three input fields: 'Name', 'Starting Letter', and 'Starting No.'. A '+ Add' button is located at the bottom right of the modal. The background table shows one entry with Id # 1, Name Counter, Starting Letter A, and Starting No. 1000.

Department Form

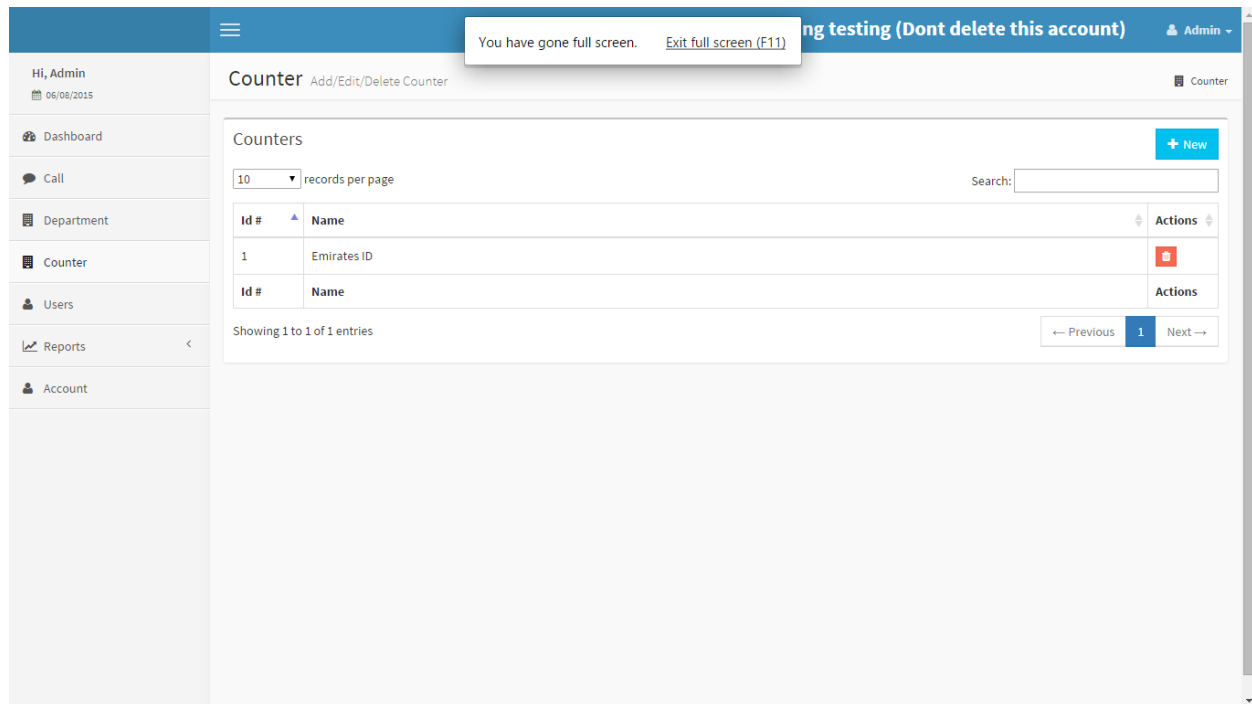

1.2(b) Removing Department

Click on Delete icon from action column

The screenshot shows the same web application interface as before. A modal window titled 'Delete Warning' is open, displaying the details of the department to be deleted: Name Counter 1, Starting Letter A, and Starting No. 1000. At the bottom of the modal are 'Yes' and 'No' buttons. A smaller, semi-transparent dialog box is overlaid on top of the 'Delete Warning' modal, containing the text 'You have gone full screen.' and a link 'Exit full screen (F11)'. The background table and sidebar are visible but dimmed.

1.3 Setting up/Removing counter

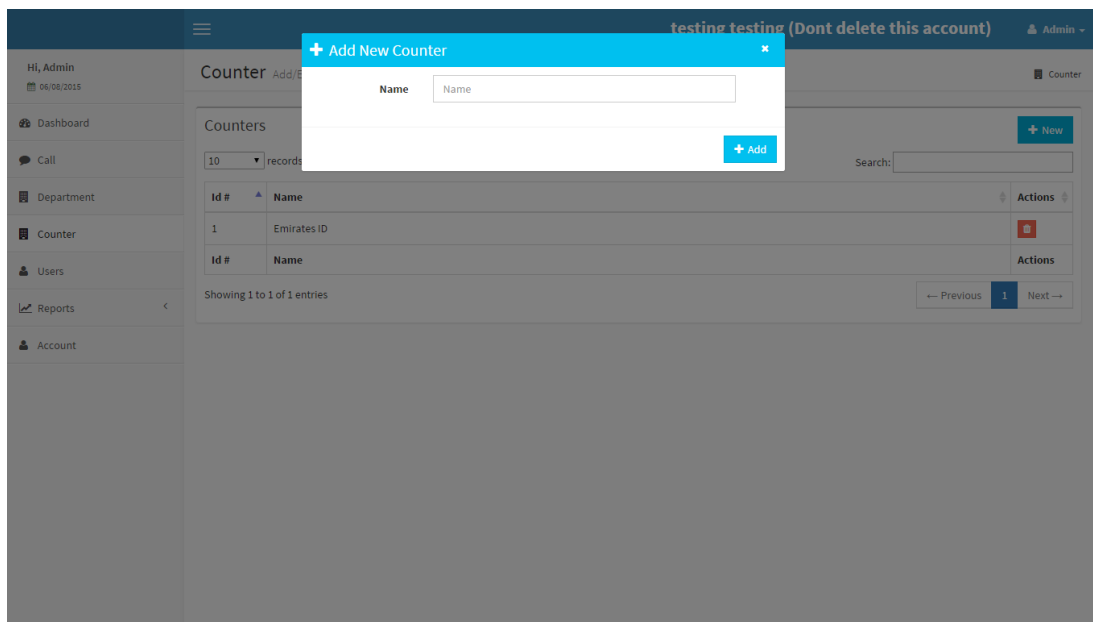

Go to counter from left side menu

Counter

1.3(a) Add new Counter

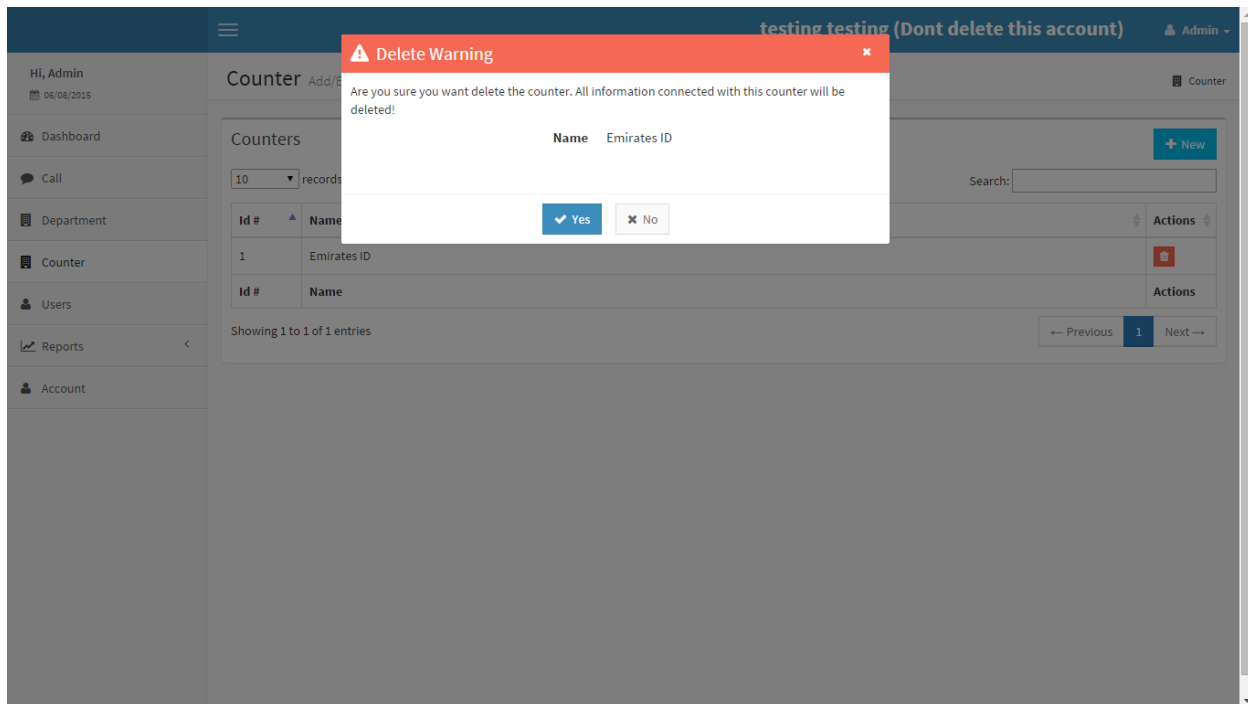

Click **New** from right side

New Counter Form
